

**REMARKS**

The present application is a continuation application of U.S. Patent Application Serial No. 10/346,853 filed January 17, 2003 (the '853 application). The present application is filed to pursue the claims directed to genetic constructs including a terminator sequence.

Claims 1-65 have been cancelled. New claims 66-114 are now pending in this case.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing **546322000302**. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Dated: January 15, 2004

Respectfully submitted,
